# Greater diversity for everyone's benefit

We are living in an era of major social change that is pushing organizations to rethink their ways of doing things. In this context, leaders of small and large companies are linked by a shared conviction: that diversity is now an indispensable factor in rising to meet 21<sup>st</sup> century challenges.

The A Effect has made it its mission to boost the presence of women from diverse backgrounds at different organizational levels. By leveraging each woman's individual strengths and distinctive approaches, we will see a greater variety of leaders emerge with complementary traits and skills. We believe it is urgent to encourage leaders -women as well as men - to adopt leadership styles that reflect who they are, so they can bring all the nuance and depth needed by our companies.

Having provided training to more than 4,500 professional women and managers from some one hundred companies in various sectors, The A Effect is the ideal partner to support organizations in boosting the presence of women in decision-making roles. We are determined to propel female talent and contribute to creating inclusive, innovative and diverse corporate cultures.

To find out how to reap the full benefits of our programs, we invite you to read this guide. It is sure to answer some of your questions and, most importantly, help you better understand what you or your participants will experience.

Thank you for your confidence,

**John Gallagher**

Co-Founder of The A Effect

# Why participate in The A Effect's programs

The A Effect's professional development programs contribute to the development of an organizational culture that encourages women to thrive.

## **They allow the organization to:**

- Meet gender equality targets more quickly.
- Unlock the leadership potential of female employees.
- Ensure higher female talent retention.
- Support internal and external business network development.

## **They help participants to:**

- Better communicate their ambition.
- Develop the mindset of an agile and efficient leader.
- Support internal and external business network development.

# Ambition Challenge

**Spring 2022**

March 11 to June 11

**Fall 2022**

September 9 to December 9

The Ambition Challenge professional development program aims to help participants reshape their mindsets and adopt new behaviours, so they can better demonstrate their ambition and maximize their talents for the benefit of the whole company. The program accelerates the development of three main skill sets (pillars):

- **Confidence:** Boost your self-confidence;

- **Risk-taking:** Learn strategic risk management;

- **Influence:** Build a solid business network and develop your political acumen.

## Objective

### Learn to communicate your ambition more clearly

- Eliminate imposter syndrome and get out of your comfort zone;
- Learn strategic risk management;
- Refine your negotiation skills;
- Build a solid business network and develop your political acumen.

## Who is this program for?

For all women who wish to make their goals and ambitions known within their company.

The only requirement: a minimum of 5 years of professional experience.

## A differentiating element in the Ambition Challenge: Group coaching

Three group coaching sessions facilitated by a professional coach. Participants will have the opportunity to ask questions in connection with the pillar they just completed.

Given that participants taking part in the program in English come from various countries around the world, the coaching sessions strengthen the support offered to ensure they integrate the skills they have learned.

# *Défi 100 jours*

**Spring 2022**

March 11 to June 11

**Fall 2022**

September 9 to December 9

The Ambition Challenge professional development program is available in French under the name *Défi 100 jours*. Same program, same methodology, just without the group coaching. To learn more about the program activities, check out the program schedule in the Appendices.

# Défi Leadership

This program is only offered in French and in the fall.

Fall 2022

September 7 to December 7

The *Défi Leadership* was created specifically for women managers who want to play their role with confidence in a changing labour market. Throughout the program, participants deepen their understanding of three leadership skills sets (pillars):

- **Confidence:** Lead with more assurance thanks to better self-knowledge;
- **Courage:** Foster authentic feedback-based communication within a team;
- **Curiosity:** Enhance and cultivate a diversified network to improve strategic vision and leadership.

## Goal

### Learn to own your leadership role

- Integrate introspective practices to refine and develop your leadership style;
- Define the unique value you contribute;
- Activate your professional network through concrete actions;
- Improve your decision-making skills.

## Who is this program for?

For all women managers who wish to develop an agile and authentic leadership mindset.

The only requirement: hold a management position with at least one employee under your supervision.

## Exclusive to the *Défi Leadership*: Squad co-development

Co-development is an effective and proven skill development and problem-solving method. To accelerate managers' growth during the *Défi Leadership* and beyond, each participant is assigned to a small group – a squad – with whom three meetings are planned.

Here are a few advantages of this approach:

- Increases creativity and critical thinking to promote problem-solving;
- Leverages collective intelligence;
- Improves self-awareness through contact with others;
- Engages and empowers participants in their professional development.

# An approach that promotes lasting behavioural change

The The A Effect professional development programs are based on a unique methodology that brings together a variety of learning strategies that reinforce the acquisition of new behaviours.

## 1 Combine introspection and action

Weekly challenges and self-reflection exercises. To better assert their leadership, participants are introduced to introspective practices that will allow them to take concrete action in their daily routines.

## 2 Find inspiration in various successful business leaders

Being exposed to various successful business leaders makes it easier for participants to see themselves in a leadership role and adopt a more ambitious mindset within their organization. Their behavioural transformations are shaped by shared advice and experience, as well as through privileged access to The A Effect leaders.

## 3 Learn with a network of women

Group activities, whether during workshops or in squads, help create a genuine learning community that supports ongoing behavioural change, encourages participants to outdo themselves, and motivates them to act.

## 4 Reap the benefits of microlearning techniques

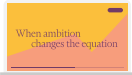

Research in neuroeducation has shown that spaced repetition of information improves learning. The content of The A Effect programs is therefore split up and repeated to foster the retention of information.

## 5 Grow by setting a personal challenge

To put the program into practice and encourage concrete action, each participant is asked to set a professional challenge to take up during these 100 days.

# A transformative experience

Learning strategies are broken down into several elements throughout the 100 days.

		Ambition Challenge	<i>Défi 100 jours</i>	<i>Défi Leadership</i>
 <p><b>Learning platform</b></p>	<p>Online training used here gives participants unlimited access to a series of activity cards, including articles, videos from experts, self-reflection exercises, and challenges to complete during the 100 days.</p>	14 cards		15 cards
 <p><b>Workshops</b></p>	<p>Workshops bring participants and leaders together for dynamic activities and discussions.</p>	3 workshops		2 workshops
 <p><b>Web conferences</b></p>	<p>Web conferences are live-streamed interviews during which participants can ask The A Effect leaders their questions directly. The recorded content is then made available for participants to view at their convenience.</p>	2 web conferences		2 web conferences
 <p><b>Triads and squads</b></p>	<p><b><i>Défi 100 jours:</i></b> Triads are small groups of participants focusing on mutual support and networking. They help participants deepen their learning, in addition to enriching interactions.</p> <p><b><i>Défi Leadership:</i></b> Squads are small groups of participants focussed on co-development to accelerate participants' professional growth.</p>	4 triad meetings		4 squad meetings
 <p><b>Group coaching</b></p>	<p>Three sessions organized by The A Effect and facilitated by a professional coach. At the end of each pillar, participants can ask questions related to what they have learned.</p>	3 group coaching session		

# Committed leaders who inspire action

A strong point of the The A Effect experience is how it draws inspiration from women and men who have climbed the corporate ladder. Here are some of the leaders that share their best advice within the framework of our various programs.

# Corporate program

## Your advantages

By registering a minimum of five participants in the same cohort, your company benefits from:

- 1 Guidance from the The A Effect client service team before, during, and after the program;
- 2 An internal pre-launch presentation to explain the program to participating employees and their managers (for companies with 11 participants or more, in one or multiple program);
- 3 Access to the corporate toolbox, which outlines the key program stages and provides communication tools to help with engagement before, during, and after the program;
- 4 A special discounted rate based on the number of participants (participants from different programs can be combined to benefit from the preferential rate);
- 5 A final report that recaps employees' experience and shows their progress.

## Accelerate the experience!

An effective learning environment fosters new skills integration and behavioural transformation. The A Effect programs are offered on a turnkey basis but, depending on internal resources, companies can provide additional support to their participants by:

- Integrating The A Effect programs to their leadership and/or diversity and inclusion strategies;
- Naming a team member as program coordinator, for even more personalized follow-ups;
- Personalizing the programs based on their workplace culture, by having their leaders take part in certain moments of the programs.

# Graduates already show tangible results\*

One year after completing the *Défi 100 jours*:

97%

of participants would recommend the *Défi 100 jours* to a colleague or a friend.

86%

say they have taken the initiative to manage a new project in their organization.

---

89%

say they have better self-confidence.

96%

have applied what they have learned in the performance of their duties.

---

\* Survey conducted in partnership with polling firm Léger in February 2020.

## Company testimonials

"I saw bold transformation take place for the vast majority of The A Effect participants. Women confided that the greatest insight was learning to DARE."

**Marie-Huguette Cormier**

Executive Vice-President  
Human Resources and Communications  
Desjardins

**A partner since 2017**

"The A Effect participants have not only gained confidence in their abilities, they have understood the true value of networking and have taken charge of their own development. Many women have spoken of applying for and obtaining jobs they would never have had the courage to pursue prior to participating in the program."

**Dan Sharkey**

Vice-President  
Global Human Resources  
CAE

**A partner since 2017**

## Graduate testimonials

"I realized that I was my own enemy. I was in my own way... The A Effect helped me realize this and assert myself fully."

**Mélanie Lavoie**

Senior Vice-President  
Talent & Culture  
VOSKER

"The A Effect gave me the confidence I needed to take risks and seize opportunities. Now I'm a manager, a position I only hoped to achieve ten years from now!"
